A Noise in the Night

Priya woke with a start, her heart beating fast. Something had disturbed her but she wasn't sure what. Abby was still sleeping quietly beside her, and the night-light glowed, but now she could see things inside the tent, and she realised that the moon must have risen. She took a deep breath, trying to calm herself, but then she heard something rustling outside. *It's nothing*, she told herself strictly. *It's a hedgehog, or a mole. It's something nice and harmless.*

The sound died away, and everything was quiet once more. But not completely. There was Abby's gentle breathing. Someone coughed in one of the other tents. It sounded like Toby. And then there was another sound – a deep throbbing that was growing steadily louder. Just for a second a bright light flashed across the tent as a car drove past the campsite, followed by another.

Task 2

Example inference question:

1. Look at the first paragraph.

How can you tell Priya was feeling nervous?

Write **two** ways.

2. _____
